Re: Docket 2005-385-E

Dear Mr. Terreni:

I read in the Greenville newspaper that South Carolina is considering moving to allow net metering. I think this is a fantastic idea that will allow more options to residents of the state. I believe that doing this would encourage more use of renewable energy like solar, which is great for both the environment and our energy independence. In fact, this could be the single most important step your office could make to help us in these goals. Please consider this carefully, and I really hope you allow this change.

Sincerely,

A handwritten signature in black ink, appearing to read "David Magnuson".
